DISCRIMINATION BY RAILROADS

Chamber Insists That Richmond Gets the Worst of It-

ITS REASONS FOR THIS VIEW

Nearly One Thousand Articles Have Advanced, and Immediate Relief Is Considered Necessary.

There has been a great deal of discus-sion as to whether or not the railroads art discriminating against meamon. The Chamber of Commerce takes the position that such is the case. The views of that organization on this subject are given below:

The advances in the freight classifica tion to Southern points, so detrimental to the interests of Richmond and other Virginia cities referred to in the newspa-Virginia cities referred to in the new pers of the 6th instant, was, on the instant, the subject of careful sideration by the Inland Trade Comm of the Chamber of Commerce. THE STATEMENT DENIED. THE STATEMENT DENIED.

In the mean time a statement has been made denying that Richmon1 and other Virginia cities were being discriminated against, as was claimed by the Chamber of Commerce, and indicating that no radical changes were proposed, but that some alterations of minor importance were to be made

to be made,

If this statement at all reflects the real views and purposes of the Classification Committee, it is entirely contrary to the assurances from some of the carriers referred to above but, it calls for correction, as it minimizes the importance of the advances, the necessity for reief and the amount of damage being inflicted so long as the present classification is in ong as the present classification is in

THE FACTS IN THE CASE.
That Virginia cities are being most injuriously discriminated against in favor of certain North Carolina, South Carolina and Georgia cities, cannot be questioned for an instant by anyone thoroughly conversant with the situation; and the injury inflicted upon Virginia cities is in no degree lessened by the fact that certain Eastern and Western cities, with respect to the trade in the Southern States mentioned, are similarly discriminated against

to the trade in the Southern States mentioned, are similarly discriminated against and it may be stated that these Eastern and Western cities are also vigorously opposing this Lew classification.

In a recent statement made by the Merchants' Association of New York, it is asserted that this classification shows not less than 371 articles advanced, and it was the opinion of the Inland Trade Committee of the Chamber, when reviewing these advances, that immediate relief was necessary and that the only practical and satisfactory remedy was the restoration of the former classification, after which reasonable revision, applicable alike to business from Virginia and South Atlantic cities, could take the place of the sweeping advances complained of.

ATTEMPT TO POISON FAMILY.

Colored Woman Being Tried on That Charge in Charles City.

An interesting case is now in progress in the County Court of Charles City, in which Sarah Gordon (colored) is being tried on the charge of an attempt to poison the family of a colored woman

named Bates.
Sarah Gordon and the Bates family have been living as neighbors for several years, and until recently they seem to have been on good terms. The cause of the whole trouble is supposed to have been jealousy on the part of Sarah Gordon, as her husband left her a few months ago, and since that time has been making his home with the Bates family.

About two weeks ago an attempt was made to poison the well, from which the Bates family drank, with Paris Green, but fortunately the package containing the poison, when thrown in the well, fell into the poison, when thrown in the weil, tell into the bucket. The next person coming for water, which happened to be a daughter of the Bates woman, drew the poison out before it affected the water. The case was reported and investigation made. The package which was drawn out of the well was sent on to Dr. J. M. CLEAR WATER AND NEW JAIL.

Movements to Have Both Becoming Popular-Shoul I Wash Streets.

The movements to have a clear water supply and a new jail for Richmond are meeting with much popular favor just at

this time. Mr. C. W. Tanner, chairman of the Council Committee on Water, was seen yesterday in regard to the movement to have a clear-water supply for Rich-mond. He said that many of the best and wealthiest residents of the city were inter-ested in having clear water, and were ested in naving clear water, and were willing to have their taxes increased if they could get it. He said that he had been approached by the presidents and vice-presidents of three of the largest banks it the air and the largest vice-presidents of three of the highest banks in the city and urged to do all he could with this end in view. These gen-tlemen were also willing to have their taxes increased, if they be assured that the city would get clear water in return, Mr. Tanner thought that about \$350,600

be required in order to secure a remains for the City Council to printe the money; then the work will be-gin in earnest. The city will, no doubt, have to issue bonds for the purpose of making the necessary arrangements for a

dear-water supply.

Many of the members of both branches when seen yesterday expressed themselves as being heartly in favor of the movement and will do all they can to get

the appropriation for the purpose.

Mr. Harry C. Glenn, one of the new
members, said that he was in favor
of the movement. He thought that the stions of a clear-water supply and the building of a new jail the most important matters to be entertained by the City

Mr. Glenn said that he would like to see an ordinance passed enforcing the washing of the principal streets of the city from was an abundance of water and that the city could well afford to have its streets washed with it. A NEW HIRING OUT SCHEME.

Chap Thomas Ought to be Hung, But Was Given Over to Greater Punishment-John Williams' Experience With a Check.

All the old timers were early on hand this morning to get their daily portion of wit and wisdom from the Great Regulator of human affairs in Richmond.

The Great Dispenser had a tangled mess of sin dumped at his feet yesterday like a pile of old well rope, and he was several times called on to draw straws as to which way to decide a case.
